

Box 'n Dice

South Africa

Box 'n Dice is a Maths Development Program where children learn mathematical concepts by doing fun activities, presented on DVD's, using various colorful resources. It focuses on the mathematical development of children from 4 – 9 years of age, giving them the opportunity to understand maths concepts by working with real objects, while fostering a keen interest in and love for maths. Box 'n Dice equip parents, home-school families, grandparents, teachers, and student teachers with the knowledge to help children reach their full potential in maths. Box 'n Dice consists of:

- The Box – Containing all the math resources needed to do the activities on the DVDs
- Level 1 – DVD and Parent guide CD
- Level 2 – DVD and Parent guide CD + additional resources
- Level 3 – DVD and CD with worksheets and memos

Box 'n Dice is available in English and Afrikaans
