Tableview Treasures is a family run business who have been in early childhood education for over 35 years. We have international childcare experience having owned and run two successful schools in the United Kingdom for 14 Years. It is our aim to draw upon and implement our experience working in the United Kingdom.

At Tableview Treasures we aim to offer a stimulating and exciting early childhood developmental program where every child's development is a unique experience.

The formative years (birth to 7 years old) are the building blocks to a child's development in order for them to flourish and grow as individuals. In these years, children develop the vital skills needed to live a full and exciting life. It is our responsibility as an Educare provider to ensure we give our children the best opportunity to attain these skills.
